KANSHIT JAIN
CO-FOUNDER/ CURATOR

He, who admires nature's creations as well as what humans find beautiful and interesting can be made into shapes that can be part of homes. His eyes are always on the lookout for strange and unusual colors, as well as stones he have never heard of or learnt about at work. At Almost Stone we will never let you down! Our pieces are meant to be treasured for a lifetime. "I feel that all shaped stones, regardless of size, can have a significant influence in the home," he says.

AKSHAT CHITTORA
CO-FOUNDER/ DEVEOPER

I began my career in the industry a few years back and I've been fascinated ever since. Growing up, I've always been aware of how this industry operates, and being a part of it brings me great joy. After spending time in natural stone core mining, I've been working to provide our clients with something unique and appealing. We anticipated the needs of the potential buyer after rigorous planning and design which led us to discover Almost Stone, a one-of-a-kind, opulent brand for our buyers. We will enhance the consumer experience while also offering something new from the usual. We have always prioritized sustainability and will continue to do so in the future.
